

# Instructions for authors on how to prepare the abstract for a mODa 10 contribution

Maciej Patan and Dariusz Uciński

**Abstract** Each oral or poster contribution should be accompanied by a **one-page** abstract. All abstracts will appear in the book of abstracts delivered to all participants in addition to the conference proceedings. Please do not forget to provide **three to five keywords** that reflect the content of the presentation. **References** (if applicable) must be numbered in the text and in the reference list, with numbers repeated throughout the text as needed. The *styling* of references (always use the standard abbreviation of a journal's name according to the ISSN *List of Title Word Abbreviations*, see <http://www.issn.org/en/node/344>) corresponds to Springer's recommended style for references in books on *mathematical, statistical and computer sciences* and is illustrated in [1, 2, 3, 4].

The abstracts prepared according to the L<sup>A</sup>T<sub>E</sub>X2e instructions given in this template should be submitted while registering. They will all be reviewed by the mODa Board which reserves the right to decide on the final form of presentation (oral or poster). Notification of the decision will be made by 15 May 2013.

**Key words:** mODa10, abstract template, experimental design
